<b>Vocation/Course:</b>	Teaching Unit 5
<b>Title:</b>	Creating a new green business concept
<b>Extent (hours):</b>	depending on the chosen scenario (individual work/ group activities/ extra project)
<b>Author</b>	P4 – Maja Kowalczyk
<b>Situation (Political problem/conflict):</b>	
The city council has announced a new competition for vocational schools in your area. The scope of the competition is to create a new sustainable/green business idea that could cater both to the young citizens but also promote sustainable ideas among all age groups. Since the main prize for the competition is a substantial grant for a school graduation trip for the whole class – you have decided to take part in it and try your luck.	
<b>Outcome (product/solution):</b>	
New sustainable/green concept idea that fulfills the requirements of the competition.	
<b>Topics covered:</b>	
<p><b>Phase 1 – finding the right concept</b></p> <ul style="list-style-type: none"> <li>• researching existing sustainable/green companies led by young entrepreneurs</li> <li>• finding a niche for one's own business</li> </ul> <p><b>Phase 2 – building green business capacity</b></p> <ul style="list-style-type: none"> <li>• finding the best place to conduct the business and best operating structure for the new business,</li> <li>• creating the business name and logo,</li> <li>• creating a business plan for the new business</li> </ul>	

### **Phase 3 – preparing for business\* - as an extra activities set for advanced learners**

- checking necessary permits and certificates for a new business,
- registering a new business, researching the funding possibilities for the new company, opening a bank account for your business

### **School-based specifications:**

This class can be implemented individually or in small working groups. It can be implemented as normal classes, flipped classrooms, hybrid classes and individual projects implemented by individual learner, small groups (4 – 5 people) or on a class forum. Every subtopic can be implemented as a stand-alone minimodule that can be either completed as an individual assignment or a group workshop.

#### **Interactive materials/tools used**

- Jamboard / Miroboard or similar
- Logo.com, canva.com, freepik.com
- Business plan tools (in research)
- podcasts or short YT videos
- interactive presentations
- selected articles connected to the specific activities – uploaded to a cloud storage or handed out in paper form – depending on the form of the class
- excerpts from the legal regulations from each partner country, drafts of the frequently used documents
- \* optional: summarization tool that will gather the knowledge gained after every activity – probably a google questionnaire or similar
- \* optional: evaluation tool (a mini game) that will check if the module user has grasped the knowledge from the module

#### **Phase 1 – finding the concept (90 min) - can be implemented in a form of:**

- normal classroom – also for big classes 25+; for example: a. presentation of the topic done solely by the teacher and assigned works for small groups in class or homework, b. introduction of the topic done by the teacher, individual/group works, presentation of the individual/group works, discussion,
- flipped classroom – also for big classes 25+; teacher assigns materials to be watched/read before the class together with the Q&A checklists; the classroom is used for the moderated discussion and group works for the more advanced stage of the class.
- individual project – if the learners can study on their own or the didactic methods used for those two subtopics are easy to follow.

Materials/tools to be used: YT videos, website articles on the young entrepreneurs and their green businesses around the world, a checklist (terms comprehension, reading comprehension, topic comprehension), checklist for new business idea.

Methods to be used: lecture + works in groups + discussion, individual research + moderated discussion, individual approach – in case of self-learning.

**Phase 2 – building green business capacity (90 min)** – is preferably done in small groups that voiced similar ideas for green/sustainable business in subtopic 1 or as individual project (for learners that can implement classes independently) but can also be also done on a class forum or as a flipped classroom.

Materials/tools to be used: logo creators, YT videos on business plan creation, business plan templates, case studies from the tourism sector

Methods to be used: general introduction+ individual/groups work, laboratory classes – learners are implementing their tasks in small groups and teacher serves as a mentor to navigate them through bottlenecks and difficult questions, individual approach – in case of self-learning.

**Phase 3 - preparing for business (90 - 180 min?)** - can be implemented in a form of:

- normal classroom – also for big classes 25+; for example: a. presentation of the topic done solely by the teacher and assigned works for small groups in class or homework, b. introduction of the topic done by the teacher, individual/group works, presentation of the individual/group works, discussion,
- flipped classroom – also for big classes 25+; teacher assigns materials to be watched/read before the class together with the Q&A checklists; the classroom is used for the moderated discussion and group works for the more advanced stage of the class.
- individual project – if the learners can study on their own or the didactic methods used for those two subtopics are easy to follow.

Materials/tools to be used: YT videos, governmental webpages with information on legal procedures connected to opening, managing, maintaining and dissolving business in various sectors (with special notion of the tourism sector), local/regional requirements in the field of creating and managing companies, governmental webpages with information on financial aides for young entrepreneurs, informative materials from various banks, funding sites and local/regional/national/transnational funding opportunities, crowdfunding sites, fundraising sites.

#### **Indications online teaching:**
